

Dr. Rolf Hoffmann

Chief Medical Officer

Dr. Hoffmann is a European-based clinical researcher who has spent decades researching the fields of pattern hair loss, alopecia areata, endocrinology of the hair follicle and hair follicle morphogenesis. Together with Dr. McElwee, he is the applicant of a landmark patent on the use of hair follicle cup cells and their use in hair diseases. He is working clinically in his private practice, as a teaching professor in the Department of Dermatology for

Marburg University, as well as a researcher on histopathologically on hair diseases, where he has published chapters in text books. Dr. Hoffmann has participated in dozens of clinical hair studies and consulted for a variety of large companies on hair matters. He is the inventor of TrichoScan®, a computerized technique to measure hair growth. Since then, he has run a successful privately owned company to market the device for dermatologists and to offer it as a service for clinical trials.
